The board of trade needs a small appropriation from the village to help along its work. The board has already shown its usefulness and the citizens of Bennington should be at the village meeting tomorrow and see that the board gets what it asks. The only opponents are the knackers who do nothing themselves for the town and are not willing to let anybody else.

Martin Craven was arrested Saturday night while intoxicated and lodged in jail. While wandering about the passenger station during the evening he fell and cut an ugly gash on the back of his head. The cut bled profusely and when the man reached the jail he presented a shocking spectacle. He was so thoroughly "canned," however, that he made no resistance when a physician sewed the edges of the cut together.

The annual village meeting takes place tomorrow, opening at 9 o'clock in the morning. This meeting is important to the people of the village. There are many questions coming up relating to welfare and public progress of the town and the public spirited citizens of the town are not present when the business is transacted, a few persons may control the action of the village for the coming year. The way to be safe is for all who can to turn out to guard against extravagance on one hand and narrowness on the other. Don't let the village business go by default.
